OLD BUSINESS
a. AMI Agreement with Sensus
District Manager Diane Pottinger presented a proposed agreement with Sensus to provide real-time meter read information with a fixed based site on the 3.7 MG reservoir. The real-time meter read information has an additional option, which was not part of the proposal, for customers to have online access to usage information. To make the system operational, there would be a one-time capital expense required to install the antenna to provide the reads and an annual ongoing fee for the software and maintenance. The proposed system would not work for all of the District’s meters as they are today. The MXUs would require updating for approximately 1000-1500 meters. The costs for the MXUs were not included in the proposal but would be an additional $125 capital cost per account plus staff time to install the meters. The Board of Commissioners reviewed and discussed the proposed agreement. All were in agreement that this technology would be a value added to the District and ratepayers but requested more information on potential impacts to budget and rates. A decision on the proposal was tabled until the end of the meeting.

b. 2019.05.17 Completion of the WSEA with Ballinger Storage Partners
District Manager Diane Pottinger provided the Board with the Attachment B (Signed Latecomer Agreement), which was inadvertently omitted from the packet. Operations Manager Denny Close presented the resolution to acknowledge the WSEA with Ballinger Storage Partners and accept the bill of sale. Commissioner Haines made a motion to approve the resolution, which was seconded by Commissioner Hale and approved by the Board. The Board and District Attorney signed the resolution. After passing the resolution, a discussion ensued regarding latecomer agreements and District processes to calculate appropriate latecomer charges. The Board agreed that a further discussion of the issue would be needed. District Attorney Joe Bennet agreed to work with the District Manager to review the statute and clarify District procedures.
c. **2019.05.18 Authorizing the Sale of Real Property located at the Intersection of 185th and 5th Avenue NE**
   District Attorney Joe Bennet summarized the negotiations with Sound Transit which resulted in the purchase and sale agreement presented with the resolution. The Board reviewed the resolution. d. **2019.05.19 Amending District Code for the low-income rate reduction**
   District Manager Diane Pottinger presented a resolution to increase the low-income discount rate to 24% of the base rate. The Board reviewed the resolution and discussed the program including eligibility requirements. Commissioner Hale requested that a review of the low-income program eligibility requirements be added to a future meeting agenda for further discussion. Commissioner Hale made a motion to approve the resolution, which was seconded by Commissioner Haines and approved by the Board. The Board and District Attorney signed the resolution.

e. **Liened properties status**
   District Manager Diane Pottinger updated the Board on the current status of a single customer with a lien on him property due to shut off. The Board discussed a possible change to the policy regarding pulling meters from properties that have been shut off due to non-payment. Currently, if meters remain, the customer accrues the base meter fee each month, adding to the balance owed to restore service. District Attorney Joe Bennett agreed to work with District Manager Diane Pottinger to propose changes to the code to that would allow meters to be removed in these cases. Ms. Pottinger also agreed to bring back the status of all the liens at the next board meeting.

Mr. Clouse also reported upcoming pre-applications meetings with the City of Shoreline.

c. **District Manager**

Sound Transit has put down a $121,000 deposit toward labor and materials. Ms. Pottinger informed the project manager that, before any work can begin, Sound Transit needs to pay 50% of the connection charge up front as is specified in the contract. Current connection charges are estimated at 1.1 million dollars. The District reviewed Sound Transit plans and suggested possible redesigns that could reduce connection charges to $698,000. Sound Transit was eager to review the design ideas with their architect and contractors. Ms. Pottinger asked the Board if the District would consider hosting a Shoreline Chamber of Commerce Event. The Board indicated they would like to discuss it at the next meeting. Finally, Ms. Pottinger informed the Board that she would have a draft of the CCR and newsletter to them this week for review.
