b. Review of New Maintenance Building Interviews
Commissioner Ricker presented a summary of the process to select the architect firm to build the District’s new maintenance facility. A request for qualification was published in the Daily Journal of Commerce in early September. Ten proposals were received. The applications were scored by the committee and the top two proposals, Wagner Architects and Driftmier Architects, were invited for interviews at a special board meeting on November 8th. Each interview lasted one hour and each candidate team was asked a pre-prepared set of questions. Following the interviews, the Board continued their meeting discussing the merits of each firm. The selection committee along with District Attorney met following the special meeting to discuss the interviews and came to a consensus as to which architectural team that should be recommended to the Board. Commissioner Ricker shared that the committee came to a consensus to award the contract to Wagner architects.

Commissioner Ricker made a motion to authorize District Manager Diane Pottinger to begin negotiating a contract for the project. Commissioner Schoonmaker seconded the motion and the motion passed unanimously.

In addition, crews potholed the water main on NE 205th Street west of 19th Ave NE for an exact location. Crews also finished installing two new water quality sample stands in the distribution system. Four additional sampling stands will be installed in 2017 within the distribution system.

Sound Transit will be signing the District’s WSEA for the new water mains they will be constructing as part of the Lynnwood Link. Ms. Pottinger also commended Customer Service Specialist Paulyne Perez for her work in implementing an e-payment system for the District. The system should be operational in the next few weeks. Announcements will be made in the District newsletter. Additionally, Ms. Pottinger also informed the board that she will be meeting with Fircrest and several community members on Wednesday November 16th regarding opening up the Fircrest Pool. The District’s HRA VEBA plan now requires that the district certify that all members are enrolled in a qualifying health plan.
